Draft Policy HS6 (Housing Mix and Density) states that all housing developments of 10 or more dwellings across Central Lancashire must:

*“a) Provide a mix of dwelling types and sizes to address the needs for that location as identified in the Housing Need and Demand Assessments; and
b) Build all dwellings to M4(2) accessible and adaptable standard; and
c) Build at least 4% of affordable dwellings on sites in Preston and Chorley, and at least 5% of affordable dwellings on sites in South Ribble, to M4(3) wheelchair accessible standard.”*

Taylor Wimpey considers that flexibility should be provided for within the policy by presenting the required mix as a range to allow site-specific considerations to be accounted for. It is important that site specific considerations are taken into account, including viability and market demand, when considering a site’s proposed housing mix, as long as it is in broad alignment with the recommendations in the Housing Need Demand Assessments.

Whilst Taylor Wimpey is committed to delivering homes to an M4(2) accessible and adaptable standard, a deliverability appraisal should be undertaken by the Council to assess the implications of this policy requirement, before enforcing that development ‘must’ meet the requirements included within the policy.

The draft policy goes on to state that for housing developments in ‘other locations within settlement boundaries’, the minimum gross density should be 27 dph. In its current form, the proposed wording does not provide enough flexibility to account for the reduction in gross to net developable area as a result of a series of legal and national planning policy changes,

including the statutory requirement to provide 10% in biodiversity net gain. This policy should be amended updated to include minimum net densities, so that it is sufficiently flexible for sites on which large parts are not developable.
