Chorley site allocations: soundness/legality/DtC:

re: proposed development 25/00213/OUT

I vehemently object to this planning proposal for the following reasons:

1. Access to the proposed site will be via Carwood Lane and Cross Keys Drive, both of which are narrow lanes with residential housing. Currently, this access point cannot cope with the existing volume, and speed, of traffic accessing Cross Keys Drive. Accessing Carwood Lane from Chorley Old Road is always extremely dangerous given the visibility and turning aspect in addition to current inconsiderate parking so adding more traffic to that lethal junction creates an unacceptable high risk. This proposed development would therefore significantly increase the volume of traffic and therefore the risk of accidents occurring.
2. 5. I worry that any development of that site would disturb toxic matter dumped there past decades ago and so will pollute and contaminate the local water table and river.

273 Please set out the modification(s) you consider necessary to make the Central Lancashire Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified in the question above. (Please note that non-compliance with the duty to co-operate is incapable of modification at Examination). You will need to say why each modification will make the Central Lancashire Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
