South Ribble site allocations: soundness/legality/DtC:

Building on this site will adversely affect the integrity of a SPA and Ramsar site, this is protected internationally and recognised by EU law to be secured for wildlife, especially the wetland for the wintering birds.

There is a Grade II listed farmhouse on the land, built in 1662. This land should be protected as it is a significant asset to Longton's heritage.

Wildlife - Three deer were photographed on this site on the 27th March 2025, grazing and enjoying the habitat. Deer are protected in the UK, especially during certain seasons and under specific circumstances, by the Deer Act 1991. To build on this site and destroy their habitat would be going against the Act.

The site holds TPOs - historical agriculture embedded in a field pattern.

This building development is guaranteed to affect the local resident's mental health significantly having to watch a large portion of the village's greenbelt and woodland ruined. It would increase traffic significantly, with at least 540 cars more on the village roads which are already congested as it is. It would require a new roundabout to be built on the A59 bypass and an only pedestrian access to Chapel Lane. Chapel lane is gridlocked during school drop off and pick up times.

283 Please set out the modification(s) you consider necessary to make the Central Lancashire Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified in the question above. (Please note that non-compliance with the duty to co-operate is incapable of modification at Examination). You will need to say why each modification will make the Central Lancashire Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
