Chorley site allocations: soundness/legality/DtC:

There is no vehicular access to this site without going over private land. Therefore it is clearly unsuitable for inclusion in any local plan. The site is very steep. and access to the main road network in any case is unviable and undeliverable.

There was no evidence of co operation at the local consultation events.

There is no public transport anywhere close, and the nearest bus service is irregular. Local parking and road issues need to be resolved in advance of any decision. I.E. Chorley Old Road and parts of Town lane are effectivley one way streets due to parking issues.

The highways dept fail to co operate and meet on site to view/discuss access arrangements on surrounding roads.

This site is undeliverable

273 Please set out the modification(s) you consider necessary to make the Central Lancashire Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified in the question above. (Please note that non-compliance with the duty to co-operate is incapable of modification at Examination). You will need to say why each modification will make the Central Lancashire Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Chorley site allocations: modifications:

The most important modification would be to remove this site in its entirety from inclusion in any local plan.

274 Do you wish to make another representation?

No
