272 Please give details of why you consider the Central Lancashire Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible (i.e., if objecting on legal grounds then please quote the specific law that the Central Lancashire Local Plan does not conform with). If you wish to support the legal compliance or soundness of the Central Lancashire Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

Chorley site allocations: soundness/legality/DtC:

Land west of M61 Delphi way/ cross keys drive - totally unsuitable. Entry and exit not only not suitable for number of properties but also dangerous for proposed number of vehicles, the lie of the land/ gradients, and the density of the site. Also feel there is a lack of opportunity to discuss individual sites at this stage.

Entry / exit - vehicle access is already quite restricted due to road widths, pavements, and some areas of delph way have no footpaths, lots of children play (there is a child's park) so increased vehicles would be dangerous. The road from the state joins Chorley old Road which is already heavily congested and can't cope with existing volumes of traffic. Access of plant and equipment would not only disrupt residents but cause unnecessary danger and hazards.

Land - I don't think the land is suitable to build on due to the gradients and composition of the ground. Local wildlife will be affected, and the water course at the bottom may become polluted.

Density - too many proposed buildings in such a small area which would have additional implications of over overpopulation.

273 Please set out the modification(s) you consider necessary to make the Central Lancashire Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified in the question above. (Please note that non-compliance with the duty to co-operate is incapable of modification at Examination). You will need to say why each modification will make the Central Lancashire Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Chorley site allocations: modifications:

Removal of this valuable green land site from the proposed plans on grounds of unsuitable land and restricted/ dangerous road access or alternatively consider access via town lane HS2.35

274 Do you wish to make another representation?

No
